EDUCATION

G.T. Patil College of Science, Commerce and Arts, Nandurbar | 2023-2026
B.C.S (Bachelor of Computer Science)
CGPA: 9.01/10

G.T. Patil College of Science, Commerce and Arts, Nandurbar | 2023
Senior Secondary (XII) - Science (MSBSHSE)
Percentage: 71.50%

MSBSHSE | 2021
Secondary (X)
Percentage: 90.20%

SKILLS

- | | |
|-----------------------------------|-----------------------------|
| • Data Analysis and Visualization | Advanced Excel and Power BI |
| • Programming Language | Python, SQL |
| • Database | MySQL |

PROJECTS

- **Excel Sales Dashboard** - [Excel | Pivot Tables | Charts]
 - Developed an interactive dashboard to analyse sales, profit, and order trends.
 - Performed data cleaning and feature engineering (Profit Margin, Month, Year) for better insights.
 - Created KPIs such as Total Sales, Profit, Orders, and Average Sales to support decision-making.
 - Used Pivot Tables, Charts, and Slicers for dynamic and user-friendly visualization.
 - Identified top-performing cities and seasonal trends to improve sales strategy.
- **Trader Performance vs Market Sentiment Analysis** - [Python | Pandas | NumPy | Matplotlib]
 - Analysed trader performance using Bitcoin Fear & Greed Index and trading datasets.
 - Performed data cleaning, preprocessing, and dataset merging for accurate analysis.
 - Engineered key metrics such as PnL, win rate, and trade frequency to evaluate performance.
 - Built visualizations to identify patterns between market sentiment and trading behaviour
 - Derived insights showing higher profitability during Greed vs Extreme Greed conditions.
- **Sales Data Analysis (SQL Project)** - [SQL | MySQL | Data Analysis]
 - Performed end-to-end sales data analysis using SQL to extract meaningful business insights.
 - Designed and executed complex SQL queries using JOIN, GROUP BY, ORDER BY, and aggregate functions.
 - Conducted data cleaning and preprocessing to handle missing values and ensure data consistency.
 - Analyzed key business metrics such as top-selling products, customer behavior, and revenue trends.
 - Identified sales patterns across regions and time periods to support data-driven decision-making.

CERTIFICATIONS

- | | |
|--|----------|
| • Introduction to Python (Online Course) from Saylor Academy | JAN 2024 |
| • Introduction to Prompt Engineering (Online Course) from Simplilearn Skill-UP | JAN 2024 |

INTERESTS

- Published data analysis projects and insightful book summaries on Medium to share knowledge actively.
